## YOUNHYUN Hands Studio

Artist Collaboration episode 01, Gilyoung Jung

YOUNHYUN Hands Studio is a project team of YOUNHYUN which aims to make various products available through artist collaboration. YOUNHYUN has accumulated its exhibition experiences with many artists who studies materiality for a long time. Art crafts filled with spirit of artists will be directed by YOUNHYUN Hands Studio and the art crafts' market will expand globally.

The first episode, YH's Handmade Ceramic Basin was made in collaboration with Gilyoung Jeong, a ceramic artist. The basin made with white porcelain, blue pictures and objet contains the humorous character unique to the artist. The product is completely handmade. The artist's picture using cobalt color on the white porcelain will add more attraction of the CHEONHWA white porcelain with water. Objects such as humans, horses and birds are in the basin, intended for a momentum for users to laugh while using the basin.

The basin as goods rather than ornaments that can be applied to space in use will transform your bathroom beautifully. YOUNHYUN Hands Studio respects artists' handmade works rather than mass-produced goods. We aim to establish a lineup that is unique to YOUNHYUN Hands through collaboration with artists based on this philosophy.
